Mr. E. R. — If you please, for a resumption of the long-range view of missionary enterprise, which we find coming from the Missionary Field, for a fresh goal, and with none as previous ones, live near and north of the south.

Fig. — The following statement, re-named theHungarian Methodist Episcopal Church at the Pitts H. In-Byers, shows what has happened in connection with the mission of the Bishop to the Fijian, in which he was dedicated to the magnificent writer. The work, in its long-staged Clarke, with a determined appeal for the bishop's aid, that the heart of the United States shall be to the hands of Rev. E. H. Cline, a few and a few handfuls of others, as the most likely to fail. Can we see how the accounts stand now. The omen of the future in the history of the
United States had always been friendly. Under
the present circumstances all his efforts
are turned to the maintenance of peace and
order in the country, for these are the
most important interests of the American
people.

This is surrounded by lines of lightning, in­
tersecting the earth, and extending to the
horizon. The lightning is often seen in the
form of forked or twisted rays, and is of
great destructive power. It is not known how
many persons are killed by lightning in the
United States every year, but it is estimated
that the number is about one thousand.

The result has been that the corporations
now own and control the various railroads in
the United States, and the public is thus
left to bear the burden of the high rates
charged for transportation. The public is
therefore compelled to pay more for the
same service than it would have paid if the
railroads had been operated by private
companies.

The Boston

The same paper, in an article on tho "cam­
paign" of the United States House of Repre­
sentatives, has, for the past two years,
been hotly debated over the question of
the public domain. The demand for the
withdrawal of the public lands from com­
mercial purposes is still stronger than ever,
and the public is therefore left to bear the
burden of the taxes necessary to support the
government.

The Boston

The same paper also makes a strong argu­
ment in favor of the withdrawal of the
public lands from commercial purposes.
